PROFESSIONAL SUMMARY

Final-year B.E. Computer Science and Engineering student with hands-on interest in AI development, software development, databases, and software quality. Seeking opportunities as a Market Research Intern, AI Developer, or Software Developer. Strong foundation in programming and web technologies with a practical, problem-solving mindset and eagerness to learn industry workflows, collaborate with teams, and contribute to real-world products.

CAREER OBJECTIVE

To begin a professional career in market research, AI development, or software development where I can apply my technical skills, learn from experienced teams, understand real industry needs, and contribute to useful, reliable software solutions.

TECHNICAL SKILLS

Programming: C, Python, Java, JavaScript
Web Development: HTML, CSS, React.js, Node.js
Databases: SQL, PostgreSQL, MongoDB
AI / Development: AI integration, AI-assisted software workflows, backend development, API-oriented development
Software Quality: Software testing fundamentals, QA-oriented thinking, requirement analysis, bug analysis and validation
Tools / Workflow: Git, GitHub, Postman, browser developer tools, VS Code

EDUCATION

Bachelor of Engineering (B.E.) - Computer Science and Engineering
ICEEM, Dr. Babasaheb Ambedkar Marathwada University (DBAMU)
Final Year | Maharashtra

EXPERIENCE

Fresher / Final-Year Student
Currently seeking an industry internship or entry-level opportunity in Market Research, AI Development, or Software Development. Interested in hands-on team environments, real product work, and learning professional engineering practices.

CERTIFICATIONS

Hydra
Technical certification / credential

AREAS OF INTEREST

Artificial Intelligence, AI Development, Software Development, Market Research, Software Quality, Databases, Web Technologies, and Product Problem Solving.

STRENGTHS

Fast learner, analytical thinking, problem solving, adaptability, curiosity, practical approach, and willingness to collaborate and learn from industry professionals.

ADDITIONAL INFORMATION

Career Targets: Market Research Intern | AI Developer | Software Developer
Availability: Open to internships and entry-level opportunities
